

The Worcester Greenstar 27i and 30i system

Our higher output Greenstar i System boiler is part of that latest generation of smaller and lighter boilers from Worcester. Suitable for small, medium and large homes, the boilers can also be fitted in a standard kitchen cupboard. This boiler can be used with our range of high efficiency Greenstore cylinders for a complete Worcester system solution for your home.

Why install a Greenstar i system?

- Fits in a standard kitchen cupboard
- High efficiency and greater reliability due to innovative heat exchanger
- User-friendly displays for ease of use
- Low energy pump reduces electrical usage
- Can be used with Greenskies solar panels for energy and cost savings

Accessories

10
YEAR
GUARANTEE

Up to 10 years guarantee on all Worcester gas boilers when fitted with a Greenstar System Filter.

Boiler dimensions

The Greenstar i system range will fit inside your wall-mounted kitchen cupboards.

Know your system

System boilers require a cylinder for storing hot water, however the major heating and hot water system components are built into the boiler itself, making it quicker and neater to install.
