

The Worcester Greenstar 27Ri and 30Ri

Our higher output Greenstar Ri boiler is a compact, wall mounted boiler that is perfect for medium and large-sized homes. Small enough to be installed in a standard kitchen cupboard, this boiler can be used with our range of high efficiency Greenstore cylinders for a complete Worcester system solution for your home.

Why install a Greenstar Ri?

- Fits in a standard kitchen cupboard
- High efficiency and greater reliability due to innovative heat exchanger
- Simple boiler control with user-friendly displays for ease of use
- Can be used with Greenskies solar panels for energy and cost savings
- Choice of controls enables greater comfort and economy

Boiler dimensions

The Greenstar Ri range will fit inside your wall-mounted kitchen cupboards.

Know your system

Regular boilers (sometimes known as traditional, conventional or heat only boilers) are ideally suited to homes that already have a traditional heating and hot water system which is linked to a separate hot water cylinder.
